Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Allowable Subject Matter

3. Claims 1-6 and 11-19 are allowed.

The following is the statement of reasons for the indication of allowable subject matter: The prior art disclosed by the applicant and cited by the Examiner fail to teach or suggest, alone or in combination, **all** the limitations of the independent claim(s) (claim 1 and 11), particularly an identifier adding component that tags a first sequence identifier to each transaction in a first ordered sequence of transactions and also tagging a second sequence identifier to a second ordered sequence of transactions

such that the first and second sequence of transactions are combined, wherein the combined sequence of transactions have the first and second sequence identifiers that indicate independent ordered sequence of transactions. The combined first and second sequence of transactions are subsequently separated into two separate ordered queues at a router, based on the sequence identifiers of each transaction.
